

Take Our Proportional Pinch Technology for a Test Drive

Demonstration Kit: MPPV-DK

The Miniature Proportional Pinch Valve Demonstration Kit is a comprehensive tool for demonstrating the function and operation of the MPPV valve series.

Included in the kit:

- M-Series Valve (MPPV-2,4,6,8)
- Bi-Polar Stepper Motor Controller & Driver Board
- Wiring Harness
- USB Flash Drive including:
 - Windows-Based Program
 - Step-by-Step Getting Started Guide
 - Software and Custom MPPV-Series Program
 - Complete Programming Manual for Application Specific Programs
 - 5 VDC power supply via. your computer

Development Kit: M/PPV-DK-24VDC

In order to meet our customers' real world application requirements, the Miniature Proportional Pinch Valve Development Kit operates both the MPPV and PPV series at optimal power levels achieving maximum valve performance. This is accomplished by utilizing a more powerful controller/driver than the MPPV-DK and an external power supply (24-30VDC, not included).

Included in the kit:

- M-Series Valve (MPPV-2,4,6,8) or P-Series Valve (PPV-4,6,8,12,16)
- Bi-Polar Stepper Motor Controller & Driver Board
- Wiring Harness
- USB to RS485 Converter
- USB Cable
- USB Flash Drive including:
 - Windows-Based Program
 - Step-by-Step Getting Started Guide
 - Software and Custom M-Series & P-Series Program
 - Complete Programming Manual for Application Specific Programs
